WHOLESALE LIST 1954-55

Tree • Climbing • Floribunda • Bush

A fine block of Somerset Quality rose bushes potted for resale. These were potted in late March and grown outdoors with no protection other than temporary wind breaks the first few weeks.

Quality Means many things — careful handling, proper storage, good packing, and all the other little things that add up to make our roses equal to the best.

Service Proper cold storage of your order until wanted — free printed labels with each rose you purchase — colored pictures of most patented varieties at cost, to help you sell.

Satisfaction Is what you will get because you know you are handling the best and can deliver to your customers a fine article.

SOMERSET ROSES are grown on the West Coast by selected growers, in carefully selected areas, that produce the finest roses in the world. The bush roses are mostly available from early January to mid-April. Most of our climbing roses are produced right here in New Brunswick and are usually available after October 15-20th. Order early so we can serve you better.
